

# Zsofia Sophansay for Hungarian Society Secretary

I am a second year Psychology (PBS) student from Churchill College and I am applying for the role of Secretary in the Hungarian Society.

## ***Why am I standing for this role?***

- I really enjoy being a member of the Hungarian Society in Cambridge and I would like to contribute to make this society even better. The role of the Secretary is perfect for me as it is key in ensuring the successful functioning of the society.

## ***What would I do?***

- Focus on clear communication between committee and society members and make sure that new ideas from anybody are listened to and realised if possible.
- Organise committee meetings and support other committee members in their roles as much as possible, for example by assisting in the organisation of society events.
- Write informative minutes and post them on the website/send them out in e-mails so that everyone in the society knows what happens at the committee meetings and can contribute to what is discussed in these.
- Be available if someone needs me at short notice.

## ***Why vote for me?***

- I was the Logistics Officer at the International Development Conference that was held last December in Cambridge. Organising this event required a lot of time commitment (weekly meetings) and I also learned how to co-operate efficiently with the other members of the committee. I also learned how to publicise an event using the media and how to attract potential speakers.
- I volunteer weekly with Streetbite, which has helped me to communicate with people from a wide range of backgrounds and be able to listen to a variety of opinions and needs.
- I am the college representative for a number of societies (Cambridge Hub, UNICEF, RAG) thus I have experience in publicising events in college.
- Finally, I am also very friendly and sociable and I would love to get to know even more people from the Hungarian community in Cambridge and make sure this society continues the positive changes it has made this year!

**Thank you for reading! :)**
