

## Cambridge University Hungarian Society Access Officer Manifesto

*Proposer: Attila Szabó, Access Officer 2015-2016, third year physicist at Trinity*

*Seconder: Adrienn Jenei, first year HSPS student at Newnham*

I am Marcell Fekete, first year Linguistics student at Jesus.

I believe that

- the role of Access Officer is key to the growth of the society
- one of the most important roles of a national society is to help prospective students
- the society has to do all we can to help freshers fitting into Cambridge
- the services of the Access Officer are essential to interviewees and the society alike
- as a beneficiary of the services of the Access Officer once as an interviewee, I have to return the favour as helping new interviewees

My undertakings would be

- organising talks of current Cambridge students and alumni in as many Hungarian high schools as it is possible to promote an idea of accessibility of Cambridge
- cooperating with institutions preparing high school students to universities abroad
- providing information to applicants, interviewees and freshers by the means of
  - an applicants'/interviewees' booklet and a freshers' booklet
  - contacting as many of them as possible and answering their questions
  - reading through Personal Statements and finding the right people to comment on them (Engineering for Engineering, History for History, etc.)
- organising programs for interviewees in December, such as
  - helping them to their colleges
  - showing them the landmarks and the city
  - socials to get to know each other and society members
  - providing accommodation if required
- organising programs for freshers in September and in term time working closely with the Events Officers, including
  - picnics
  - initiation
  - socials like pub crawls or movie nights

My guarantee is my enthusiasm as I strongly believe that I have to help prosperous student and the fact that this has already happened as I helped students from my high school this year with some of their inquiries.
