

Barbara Ürmössy

the only 1st year Architecture, St. John's

I am an enthusiastic member of the student community at my college with strong ties to the JCR. I also take part in organising the St. John's College May Ball (the 7th best party in the world according to The Sunday Times 😊). In my free time I play in the college's Ultimate Frisbee team and help out with ArcSoc last-minute decor-making.

My relevant work experience includes volunteering at the Fazekas+Festival in secondary school, being a student counsellor at the school's entirely student-organised Freshers' Camp and leading a student-run society "Room Commando" to renovate and reinvigorate community spaces at school. Additionally, I took an active role in organising dress-ordering for my class at Prom.

Balázs Németh

1st year Trinmo

I am a many-sided student interested in a wide variety of activities: I play the violin (occasionally giving performances), play tennis, organise bridge parties with my friends, do taekwondo and visit galleries and museums in my free time.

I was a student helper at Fazekas+Festival during high school and assisted the organisation of a student concert. I have a lot of experience hosting house parties from high school so I can assure you that I could deliver a high standard of events here in Cambridge as well.
