
KAMILLA FOR JUNIOR TREASURER

1ST YEAR, LAND ECONOMY

Introduction

I'm Kamilla Marosi, a first year Land Economist at Murray Edwards College. I currently serve as the Social Media officer of the society, and therefore have already gained experience with the committee's work. As of next year, I would like to handle the finances, sponsorship, and public profile of the Hungarian Society more effectively, and serve as your next junior treasurer.

Goals

Beside securing yearly funding from the Society Syndicate and running the books, my main goal would be to secure outside sponsors for the Society, and help develop the society's "business model" in the light of recent criticism by the syndicate. I would continue on nurturing the Society's public image while negotiating with sponsors.

Experience

- Social Media Officer of the Hungarian Society
- Interning at MKB Bank, managing complex databases, overseeing finances of small and middle-sized enterprises
- Fulfilling administrative roles at Budapest International Model United Nations (BIMUN) 2017
